

CoRound Basic: Cost-Effective Standard Hygienic PVC System

CoRound Basic offers a reliable and economical solution for hygienic wall-floor junctions in environments with moderate cleanliness requirements, such as warehouses, dry storage areas, and non-critical food zones. Made from the same high-quality, rigid PVC compound as the premium lines (Calcium-Zinc stabilized, lead-free), CoRound Basic provides durable, easy-to-clean profiles with traditional sealing methods.

Key Features

- Smooth, non-porous surfaces for effective sanitation
- Concealed fixings for a clean finish
- Chemical-resistant and temperature-stable from -4°F to +140°F
- Simple installation with standard food-grade silicone sealing
- Fully compliant with FDA, USDA, and CFIA requirements

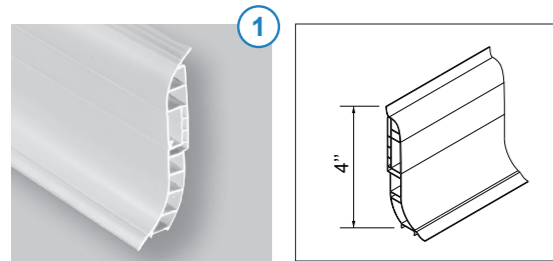

Customer Benefits

- Lower initial cost compared to premium hermetic systems
- Proven durability in general industrial applications
- Easy maintenance and compatibility with existing installations
- Quick availability for standard projects

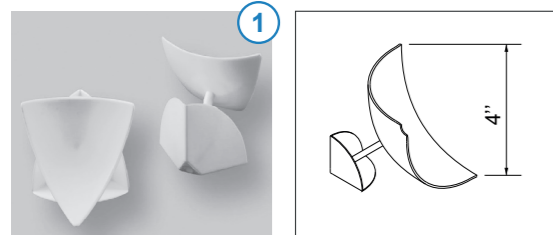

The expert's advice:

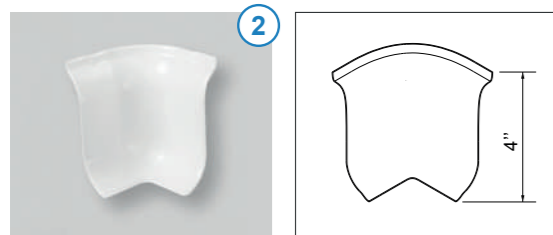

Choose CoRound Basic for cost-sensitive projects; upgrade to CoRound Seal for minimal-sealant, hermetic performance in high-hygiene food/pharma environments.

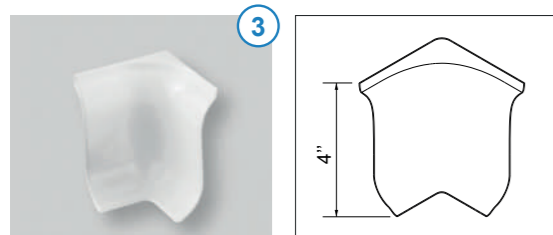

CoR Skirt B: Cost-effective rigid PVC sanitary skirting with flexible edges that adapt to panels, preventing contamination. Features a removable snap-on cover strip running the full length for easy access during installation (riveting guide inside) – snaps closed for concealed fixings with a minimal visible joint line. *Thin bead of neutral food-grade silicone recommended at floor joints for optimal waterproofing in high-moisture areas.*
 Length: 13 ft (4,000 mm) - Packing: 10 pcs/box
 Colors: Pure White 9010, Sand White 9002.

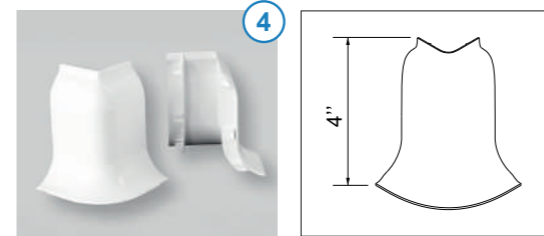

CoR 4 B 3-Way Internal Corner: Rigid 3-way internal corner profile delivers seamless connections for CoR 4 sanitary covering at complex triple junctions. Ensures continuous, easy-to-clean surfaces while preventing residue accumulation, providing reliable hygiene for cold storage, warehouses, and general food processing areas.
 Packing: 100 pcs/box
 Colors: Pure White 9010, Sand White 9002, Light Grey 9023

CoR Skirt B 3-Way Internal Corner: Precision 3-way internal corner joins CoR Skirt sanitary skirting with CoR 4 coving at internal junctions. Creates firm, uniform transitions that minimize dirt buildup and simplify cleaning, cost-effective solution for solid sanitation in moderate-hygiene environments.
 Packing: 50 pcs/box
 Colors: Pure White 9010, Sand White 9002.

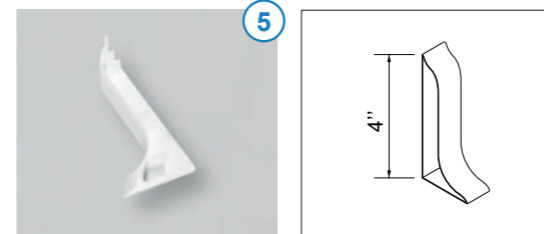

CoR Skirt B 2-Way Internal Corner: Dedicated 2-way internal corner profile connects CoR Skirt sections at inner angles (independent from coving). Provides smooth, continuous joints that reduce residue risks and support easy maintenance, ideal for straightforward hygienic wall-floor protection.
 Packing: 50 pcs/box
 Colors: Pure White 9010, Sand White 9002.

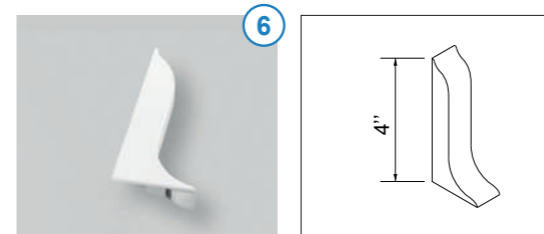

CoR Skirt B 2-Way External Corner: External 2-way corner ensures clean continuity of CoR Skirt sanitary skirting around outer angles. Maintains uniform appearance, prevents contaminant traps, and delivers durable, easy-to-clean performance at an affordable price point.

Packing: 50 pcs/box
 Colors: Pure White 9010, Sand White 9002.

CoR Skirt B End Right: Right-side termination cap offers a polished, protective closure for CoR Skirt ends. Seals exposed edges, enhances aesthetics, and supports basic hygiene by blocking dirt entry simple and reliable finishing touch.

Packing: 100 pcs/box
 Colors: Pure White 9010, Sand White 9002.

CoR Skirt End Left: Left-side termination cap provides clean, secure endpoint protection for CoR Skirt. Delivers professional finish while guarding against moisture and residue essential for maintaining hygienic integrity in cost-effective installations.

Packing: 100 pcs/box
 Colors: Pure White 9010, Sand White 9002.
