

CoRound Corner Protector: Hygienic Impact-Resistant Edge Guards

Category Description

CoRound Corner Protector: Robust PVC system shields vulnerable vertical corners and columns from impacts in high-traffic areas. Impact-absorbing design protects insulated panels and walls while maintaining easy-clean hygienic surfaces, ideal for cold storage, warehouses, food processing, and industrial facilities.

Key Features

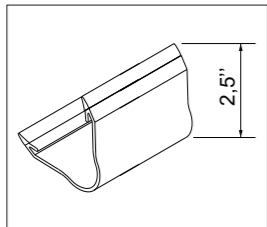

- Heavy-duty, resilient PVC profile absorbs impacts and recoils to minimize damage
- Angular base support ensures secure mounting on 90° convex corners/columns
- Soft PVC end caps seal openings to prevent dirt ingress and maintain hygiene
- Rounded edges for smooth, easy-to-clean surfaces with no sharp corners
- Available in high-visibility safety yellow and neutral colors

Customer Benefits

- Reduces repair costs by protecting walls, columns, and panels from forklift/cart impacts
- Enhances workplace safety and hygiene in busy food processing and cold storage environments
- Quick installation with no floor contact, leaves space above skirting for drainage/cleaning
- Long-lasting durability lowers replacement frequency and downtime
- Professional appearance that complies with sanitary standards without compromising aesthetics

1

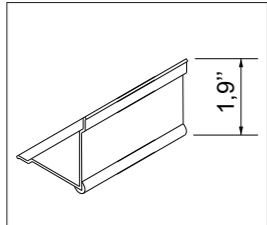

CoR Protector 4: Heavy-duty impact-resistant PVC profile snaps onto base for superior protection of vertical corners and columns in high-traffic zones. Thick, resilient design absorbs shocks and recoils to prevent damage while maintaining smooth, hygienic surfaces—perfect for warehouses, cold rooms, and food facilities.

Length: 13 ft (4,000 mm) - Packing: 10 pcs/box
Colors: Pure White 9010, Sand White 9002, Grey 7040, Safety Yellow 1018.

2

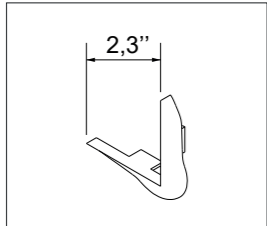

CoR Protector 4 Base: Angular support profile fixes securely to 90° convex corners/columns, providing stable foundation for CoR Protector 4. Ensures precise alignment and added joint stability—essential for reliable impact protection in demanding industrial settings.

Length: 13 ft (4,000 mm)
Packing: 10 pcs/box.

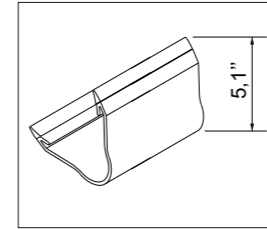

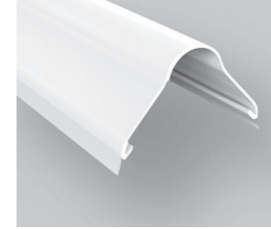

3

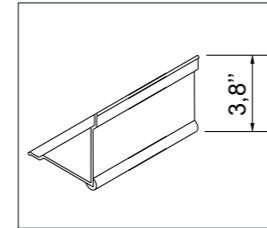

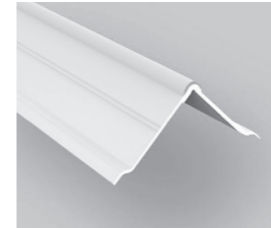

CoR Protector 4 End: Soft PVC end caps seal top and bottom of CoR Protector 4, preventing dirt/moisture entry for superior hygiene. Deliver clean, professional finish with no exposed edges—easy to install and maintain in sanitary environments.

Colors: Pure White 9010, Sand White 9002, Grey 7040.
Packing: 40 pcs/box

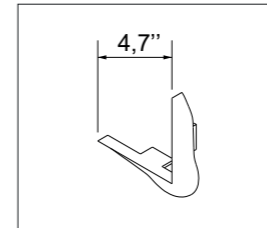

CoRound Protector 8: Extra-large heavy-duty PVC vertical corner/column protector with wide 8" coverage shields insulated panels, walls, and pillars from severe impacts in extreme-traffic zones. Oversized, resilient design delivers superior shock absorption and recoil to prevent damage while maintaining smooth, easy-clean hygienic surfaces, perfect for cold storage, food processing, logistics warehouses, and facilities.

Length: 13 ft, Packing: 2 pcs/box.
Colors: Pure White 9010, Sand White 9002, Grey 7040, Safety Yellow 1018.

CoRound Protector Base 8: Heavy-duty angular PVC support profile mounts securely to 90° convex corners/columns, providing robust foundation and enhanced joint stability for CoRound Protector 8. Ensures precise alignment and maximum impact resistance—essential for reliable, long-lasting protection in high-abuse industrial and hygienic environments.

Packing: 2 pcs/box.

CoR Protector End 8: Soft PVC termination caps seal top and bottom of CoRound Protector 8, blocking dirt/moisture entry for superior hygiene and safety. Deliver clean, professional sealed finish with no exposed edges—easy to install and maintain in cold rooms, processing plants, and heavy-traffic sanitary facilities.

Packing: 20 pcs/box
Colors: Pure White 9010, Sand White 9002, Grey 7040.
